

## Forensic Engineering and Technical Experts

*“Forensic engineering is the application of engineering principles to the investigation of failures or other performance problems. Forensic engineering also involves testimony on the findings of these investigations before a court of law”*

## World Class Forensic Consultants

### Our Services

DAC Consulting provides in depth technical studies for complex claims and disputes worldwide. Our services support both the Insurance Claims Industry as well as the legal market, including litigation and alternative dispute resolution.

- ✓ Root Cause Analysis
- ✓ Reinstatement Assessment
- ✓ Forensic Scheduling
- ✓ Expert Witness Services

### Our Experts

DAC Experts are appointed in some of the most challenging claims and construction disputes, adding value by providing independent and robust opinions represented by core engineering disciplines such as: Mechanical, Electrical, Chemical/Process, Civil, and Materials Science.

Our Scheduling Experts also combine their technical knowledge to support the insurance industry in claims related to Business Interruption (BI) and Delay in Start Up (DSU), through our services in Forensic Scheduling.

## Unrivalled support

Due to our Global presence and diversity, our Experts support our clients with knowledge in a multidisciplinary fashion, with wide-ranging capabilities, and with the continuous assistance of our network to provide quality expedited opinions to any type of complex claim, in any location.

## Our work covers a broad range of projects:

- ✓ Desalination Plants
- ✓ Gas Storage Facilities
- ✓ Gas Compression Plants
- ✓ Geothermal Plants
- ✓ LNG Plants / Facilities
- ✓ Manufacturing and Process Plants
