

Forensic Engineering and Expert Witness Services

“Being part and contributing to organisations such as Who’s Who Legal, the Expert Witness Institute, and the Academy of Experts, and sponsoring events for organisations such as the ICC help us to keep our Experts up to date with best practices.”

Daniel A. Correa

Our Services

DAC offers the highest level of construction expert witnesses in the World. A team of individuals that can tackle any Technical, Delay, and Quantum matter for medium-sized or large/complex construction disputes worldwide, including the Oil & Gas, Energy, Renewables, and Infrastructure industries.

DAC continues to train our multiple experts in providing our clients with the best analysis and advice when they most need it, and support Courts and Tribunals with the most reliable independent opinion when complexity drives the case.

- **Technical:** DAC counts with dozens of technical/discipline experts situated in key locations in every continent.
- **Delay:** DAC is increasingly involved in some of the largest and most interesting forensic delay and disruption analyses for construction disputes around the World.
- **Quantum:** DAC continues to grow its quantum expertise and alliances worldwide to better support our clients in this very important construction litigation expert requirement.
